In 2025, we're excited to expand the program to encompass other high-demand pathways, including creative, business, and engineering T Levels. By offering a diverse range of opportunities, we're empowering students to explore their passions and unlock their full potential. At the heart of our program lies a unique blend of classroom learning and practical application. Through a combination of 15-day stints in our state-of-the-art skills hubs, group projects focused on charitable initiatives, and individual team-based challenges, our students gain a well-rounded understanding of the Amazon culture and way of working.

Are you a school or college interested in providing your students with this transformative opportunity? Contact us today to learn more about the Amazon T Level Placements and how we can collaborate to shape the future of digital talent.

- Aimed at 16-18 year old T Level students
